

BRUNSWICK COUNTY SCHOOL SYSTEM EDULOG PARENT PORTAL

Dear parents and caregivers:

Our school district is excited to announce that you now have access to a new smartphone app to improve communication, school bus safety, and efficiency. The **Edulog Parent Portal** app provides you with information on the GPS location of your child's school bus and sends you a push notification when the bus is nearing your bus stop.

This app is free of charge to our parents, caregivers, and students. In addition to displaying the location of your bus and sending the notifications, you can also receive time-sensitive messages from our transportation department, such as when a different bus is running the route due to maintenance on your regular bus or when your bus is running late.

The **Edulog Parent Portal** app is provided by Education Logistics, Inc. (Edulog), a premier provider of school bus technology. School bus locations are sent from a GPS device installed on each bus, which not only provides up-to-date information for you, but also for our school bus maintenance staff who need to know the real-time location of each bus for maintenance and other service requirements.

This new app can be downloaded from the Google Play Store or the Apple App Store – either of which can be accessed by pointing your smartphone camera at this QR code:

Once you have the app, just add your student(s) and you will have access to their current bus information and be able to track the location of the bus they are assigned to. Since student security and safety is important, you must have their Student ID number and date of birth to register them on the app. Please contact their school if you do not have their ID number.

The Parent Portal app is a tool for you to use to find out where your child's bus is and when it is getting close to their bus stop. If your child is not currently assigned to a bus, please contact their school to request transportation. The bus and stop information will appear on the app once they have been assigned.

Please know that our goal is to provide safe and efficient transportation for all Brunswick County children riding the school buses. By improving communication and expanding the information available to you by implementing this app, we are working hard to meet and exceed that goal.

If you have additional questions regarding the app, please contact our Transportation Department at: **910-756-6998**.
